

Features of VENUS series

专为移动及运输设计
Designed to move and transport

VENUS系列移动灯塔产品装备塞夫.爱科拖车，采用低重心设计，为公路高速牵引运输提供极大方便。

New VENUS series Mobile Lighting equipped with SAF-ELCO tow tractors and have a lower center of gravity, so they can be easily towed on road.

产品的长途包装运输将分为两种方式，2420mm×1440mm×2230mm的整备尺寸将满足40尺集装箱容纳八台的要求；机器亦可以方便的拆解为拖车、作业设备及主机箱三部分，更多节省长距离路路或海路运输费用。

We can transport products Long distance in two ways: 2420×1440×2230mm overall dimensions will meet the requirements of eight towers contained in a single 40' container or flat-bed truck. While Towers also can be transported in three smaller parts, and this will sharply lower down the shipping costs.
